Stoner® M213
Food Grade Release Agent

Product Description

Stoner® M213 Food Grade Release Agent is a specially formulated to have a faster cure time even for lower temperature applications. M213 is a Food Grade release agent and anti-stick lubricant for molded materials such as plastics, rubber, waxes, and similar materials. Provides fast, easy part removal from molds which prevents build-up. Improves molding efficiency in many processes including injection, compression, transfer, vacuum form, investment casting and extrusion molding.

Stoner® M213 Food Grade Release Agent ADVANTAGES:

- M213 meets FDA regulation 21 CFR 181.28 as a release agent in the manufacture of food contacting materials.
- Faster cure times even for lower temperature applications.
- Saves time - reduces over application and prevents mold build-up.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Colorless and non-staining.

Uses

Stoner® M213 Food Grade Release Agent is a release agent and anti-stick lubricant for molded materials:

- Plastics
- Rubber
- Waxes

Directions for Use

Recommended Procedure

This material is ready-to-use and requires no dilution. Best application is achieved by applying a thin coating using a spray system.

Storage and Handling

Do not use near ignition sources. Avoid prolonged or repeated contact with skin. Avoid prolonged or repeated breathing of vapor. Use with adequate ventilation.
Keep container tightly closed when not in use. Store in a cool, dry, well ventilated area away from all sources of ignition. Empty container may contain residues which are hazardous. Do not reuse this container.

Packaging

Stoner® M213 Food Grade Release Agent is available in:

- 5-gallon pails & 55-gallon drum Part # M213
- Totes available upon request.
