A490 SKID Penetrating Lubricant

Product Description

Stoner® A490 SKID Penetrating Lubricant is a multi-purpose shop tool which penetrates, lubricates, cleans, and protects most metal surfaces. SKID penetrates between close tolerance parts to quickly dissolve and loosen rust, corrosion, dirt, and scale. As it penetrates into the tightest areas, it carries lubricating oil to free stuck or frozen parts for easy removal and smooth operation. The solvents in SKID help clean and remove grease, tar, sludge, and other buildup. SKID leaves a very thin coating to help protect metals and prevent future seizing.

A490 ADVANTAGES:

- Quickly penetrates between close tolerance.
- Dissolve dirt, rust, and corrosion.
- Loosens tight nuts, bolts, pins, and bearings.
- Cleans, and protects most metal surfaces.

Uses

A490 SKID Penetrating Lubricant penetrates rusty stuck parts to quickly loosen. Cleans, and protects metal surfaces of corrosion.

Directions for Use

Recommended Procedure

Hold the can 8 to 10 inches away from the surface and spray or flush areas to be cleaner or loosened. If necessary, reapply and let soak on difficult or hard-to-remove parts. Test before using on plastic or other solvent-sensitive materials.

Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

Packaging

A490 SKID Penetrating Lubricant is available in:

- 12-can case of 12 oz cans Part # A490
