A499 Precision Non-Chlorinated Mold Cleaner

Nonfood Compounds
Program Listed P1
161429

Product Description

A499 Precision Mold Cleaner is a fast acting, non-chlorinated cleaner and degreaser for molds and tooling. It's extra powerful spray stream and cleaning agents to dissolves greases, oils, release agents, adhesives, waxes, and contaminates from molds, tools, and equipment. It quickly evaporates leaving no residue!

A499 has received NSF® approval for use in food-grade molding. Bearing the NSF® Mark assures Stoner Molding customers that A499 Precision Cleaner has been tested and approved by one of the most respected independent organizations in the world.

A499 Precision Mold Cleaner ADVANTAGES:

- Extremely powerful spray stream.
- Removes grease, oil, release agents, adhesives, wax, and contaminates from molds.
- Dissolves and flushes away Stoner release agents from molds.
- Cleans and prepares molds before application of Stoner rust preventives.
- Quick evaporation leaves no residue on molds.
- Safe on metals and solvent-resistant materials.
- Alternative to chlorinated solvents for heavy-duty mold cleaning.
- Contains no chlorinated solvents such as trichloroethylene or methylene chloride.

Uses

A499 Precision Mold Cleaner is used in the molding and manufacturing industry for cleaning molds, tools, machinery, metals, and equipment. Not for use as a general cleaner and degreaser. For a non-flammable cleaner, try Stoner's **A497 Non-Flammable Mold Cleaner**. For use in manufacturing process only.

Directions for Use

Recommended Procedure

Shake well before using. Spray the mold to loosen and remove dirt. Allow the mold to air dry or wipe it dry with a rag. Heavily soiled areas may require a longer dwell time and scrubbing with a brush or rag. Difficult residue may require a second application.

Do not use on solvent-sensitive materials. Always test before using. Hold can upright when spraying, to avoid depleting propellant. When can is near empty, point spray head toward black dot on the top rim.

Storage and Handling

Do not use near ignition sources. Do not expose container to heat, flame, sparks, static electricity, or other sources of ignition; they may explode and cause injury or death. Use with adequate ventilation. Avoid prolonged or repeated breathing of vapor and contact with skin. Do not store containers in excessive heat or direct sunlight. Store in a cool, dry, well ventilated area away from all sources of ignition. Do not store at temperatures above 122° F. Store at temperatures between 45° and 99° F. Normal precautions common to safe manufacturing practice should be followed in handling and storage.

Packaging

A499 Precision Mold Cleaner is available in:

- | | |
|-----------------------------|---------------|
| • 12 can case of 15 oz cans | Part # A499 |
| • 5-gallon pails | Part # M499PL |
| • 55-gallon drum | Part #M499DR |
