# A595 Heavy-Duty Mold Cleaner for Large Surface Areas

## Product Description

**A595 Heavy-Duty Mold Cleaner** is a non-chlorinated, non-citrus, fast-acting mold cleaner with an extremely powerful spray stream and slower evaporation rate specially formulated for metal molds. It's extra powerful spray stream and cleaning agents to dissolve greases, oils, release agents, adhesives, waxes, contaminants from molds, tools, and equipment and finger marks. Leaves no residue!

### A595 Heavy-Duty Mold Cleaner ADVANTAGES:

- Covers large mold surfaces and remains active for deeper cleaning.
- Extremely powerful spray stream.
- Removes grease, oil, release agents, adhesives, wax, and contaminants from molds.
- Dissolves and flushes away Stoner release agents from molds.
- Cleans and prepares molds before application of Stoner rust preventives.
- Slower evaporation leaves no residue on molds.
- Safe on metals and solvent-resistant materials.
- Alternative to chlorinated solvents for heavy-duty mold cleaning.
- Contains no chlorinated solvents such as trichloroethylene or methylene chloride.

## Uses

**A595 Heavy-Duty Mold Cleaner** is used in the molding and manufacturing industry for cleaning molds, tools, machinery, metals, and equipment. Not for use as a general cleaner and degreaser. For a non-flammable cleaner, try Stoner's **A497 Non-Flammable Mold Cleaner**. For use in manufacturing process only.

## Directions for Use

### Recommended Procedure

Shake well before using. Spray the mold to loosen and remove dirt. Allow the mold to air dry or wipe it dry with a rag. Heavily soiled areas may require a longer dwell time and scrubbing with a brush or rag. Difficult residue may require a second application.

Do not use on solvent-sensitive materials. Always test before using. Hold can upright when spraying, to avoid depleting propellant. When can is near empty, point spray head toward black dot on the top rim.

## Storage and Handling

Do not use near ignition sources. Do not expose container to heat, flame, sparks, static electricity, or other sources of ignition; they may explode and cause injury or death. Use with adequate ventilation. Avoid prolonged or repeated breathing of vapor and contact with skin. Do not store containers in excessive heat or direct sunlight. Store in a cool, dry, well ventilated area away from all sources of ignition. Do not store at temperatures above 122° F. Store at temperatures between 45° and 99° F. Normal precautions common to safe manufacturing practice should be followed in handling and storage.

## Packaging

**A595 Heavy-Duty Mold Cleaner** is available in:

- 12 can case of 15 oz cans Part # A595
- 5-gallon pails Part # M595PL
- 55-gallon drum Part #M595DR
