# A612

## Short Term Rust Preventive

Nonfood Compounds  
Program Listed H2  
161469

### Product Description

**Stoner® A612 Short Term Rust Preventive** is a short term coating used as a mold protectant against rust and oxidation for overnight and weekend protection.

**A612** seals out dampness and prevents rust and corrosion by leaving a thin film of rust preventive.

**A612** leaves a thin film of rust preventive that dissipates during start-up and requires no cleaning.

**A612** has received NSF® approval for use in food-grade molding. Bearing the NSF® Mark assures Stoner Molding customers that A612 Short Term Rust Preventive has been tested and approved by one of the most respected independent organizations in the world.

### A612 Short Term Rust Preventive ADVANTAGES

- Prevents oxidation and corrosion.
- No start-up cleaning.
- Overnight & weekend protection.
- NSF® approval for use in food-grade plastic molding.

### Uses

**Stoner® A612 Short Term Rust Preventive** provides short-term protection against moisture and oxidation. It prevents rust and corrosion from ruining exposed steel and stored metals overnight and on weekends.

### Directions for Use

#### **Recommended Procedure**

Shake well before using. Hold can 10 to 12 inches from surface to be sprayed. Apply a uniform coating for best results.

### Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

### Packaging

**A612 Short Term Rust Preventive** is available in:

- 12-can case of 10 oz cans Part # A612
