B510 PolyOff™

Mold Cleaner and Polyurethane Remover

Product Description

B510 PolyOff™ is a powerful formula cleaner that quickly removes cured polyurethane, polyurea, and other difficult build-up from tooling, molds, and machinery. Use only on steel, aluminum and other metal tooling.

B510 PolyOff™ ADVANTAGES:

- Cleans light build-up in minutes.
- Removes cured polyurethane.
- Available in a variety of sizes to meet the usage rate of any facility – and 55-gallon drums.

Uses

B510 PolyOff™ removes cured polyurethane, polyurea, and other difficult build up from tooling, molds, and machinery. Use only on steel, aluminum and other metal tooling. Useful for overnight storage of mix head parts.

Directions for Use

Recommended Procedure

Wear rubber gloves and safety goggles to protect skin and eyes. Saturate the mold build-up with B510 and allow to soak. Soaking time may vary depending on degree and type of build-up as well as temperature of mold. Allow B510 to soak in until build-up easily wipes away with a rag or soft parts cleaning brush. Difficult areas may require second application, 24 hours of soaking, or scrubbing with soft cleaning brush or rag. Remove excess cleaner with a rag or allow to air dry. B510 is a strong cleaner which may be harmful to certain plastics, paints, or other sensitive materials. Always test in a small area before using. Immediately after use, let B510 evaporate from cloths or other applicators in a well ventilated area, away from sources of ignition. Dispose of rags or applicators in a metal container in accordance with local, state, and federal regulations.

Storage and Handling

B510 PolyOff™ Keep container tightly closed when not in use. Store in a cool, dry, well ventilated area away from all sources of ignition. Avoid prolonged or repeated breathing of vapor. Avoid prolonged or repeated contact with skin. Use with adequate ventilation. Do not use near ignition sources. Consult SDS for additional safety information.

Packaging

B510 PolyOff™ is available in:

- 5-gallon pail Part # B510PL
- 55-gallon drum Part # B510DR
