## G495 Releasomers™ FRP-SC Semi-Permanent Mold Release

### Leading vanity and shower supplier prefers G495 Releasomers™ FRP-SC.

A molder of polyester solid surface vanities and bath products was experiencing damage to their tooling. After switching to **G495 Releasomers™ FRP-SC** release, they noted an improvement - no more damaged tools along with improved part appearance and less tool cleaning. **G495 Releasomers™ FRP-SC** allows more flexibility to buff over a larger window of time, perfect for covering larger tools.

Item # G495

#### This molder switched to FRP-SC because:

- Improved part appearance - more first-quality parts and lower scrap rates.
- Multiple releases.
- No more damaged tools
- Less cleaning.
- Easy to apply - larger window of time to buff.
- Consistent performance.
