Stoner® M615 Polyurethane Release

Product Description

Stoner® M615 Polyurethane Release is a versatile, silicone free release designed to release rigid foam and cast urethane. Also provides excellent results with in-mold coatings. The silicone free formula is compatible with many coatings resulting in less clean-up of parts.

M615 Polyurethane Release ADVANTAGES:

- More mold up-time due to low build-up.
- Less scrap due to non-silicone formula.
- Safer formula due to fl ash point about normal room temperature.
- Versatile release can often be applied with existing equipment.
- Better productivity due to clog free spraying.

Uses

M615 Polyurethane Release is for molding these materials:

- Rigid Foam
- Cast Urethane

Directions for Use

Recommended Procedure

Initially apply 2-3 light coats to assure even coverage. Release should wet mold surface but should not pool or drip when applied at the correct amount. After each part, apply a light touch –up coat, making surface damp but not wet.

Cleaning: Excess M615 can be removed by wiping off a warm tool or with a solvent based mold cleaner such as Stoner A497Non-Flamamble Cleaner or Stoner B510 Polyoff.

Storage and Handling

Refer to SDS for complete safety instructions. Use with adequate ventilation and keep away from sparks and other ignition sources. Wear gloves and safety glasses.

Packaging

5-gallon pails & 55-gallon drum is available in:

- 5-gallon pails Part # M615PL
- 55-gallon drum Part # M615DR
- Totes available upon request
