P203

Mold Release Agent

Product Description

Stoner® P203 Mold Release Agent is a time saving release agent for polyurethanes and other materials. Apply a thin coating on surface to let parts release quickly and easily. Prevents sticking so you can make more high quality parts - every hour, every shift, every day.

P203 Mold Release Agent ADVANTAGES:

- Saves time – lets you remove molded parts from molds quickly and easily.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.

Uses

P203 Mold Release Agent is a release agent and anti-stick lubricant for molded materials:

- rubber
- plastics

Directions for Use

Recommended Procedure

This material is ready-to-use and requires no dilution. Agitation of liquid is recommended but may not be necessary. Best application is achieved by applying a thin coating using a spray system.

Storage and Handling

Keep container tightly closed. Keep container cool, dry, and away from sunlight. Emptied container retains vapor and product residue. Do not reuse this container unless thoroughly cleaned. **KEEP FROM FREEZING.**

Packaging

P203 Mold Release Agent is available in:

- 5-gallon Part # P203PL
