

Product Description

Stoner® S302 Rocket Release® is an extremely versatile release agent which is generally acceptable for applications where a food grade release is required. In many applications, Rocket Release is considered to be the “most paintable” release agent available when molding plastics and similar materials. Rocket Release allows molded parts to be painted, plated, hotstamped, adhesive bonded, labelled, or otherwise decorated in most applications. Provides a long lasting anti-stick film for fast, easy part removal from molds and multiple part releases per application. Improves molding efficiency in many processes including injection, vacuum form, and pour cast molding. Economical – a light coating produces best results.

S302 Rocket Release® ADVANTAGES:

- Allows molded parts to be painted, hotstamped, or otherwise decorated.
- The release agent in S302 meets FDA regulation 21 CFR 184.1400 as a release agent in the manufacture of food contacting materials.
- Improves part appearance and reduces defects caused by sticking.
- Formulated to provide high levels of user and environmental safety.
- Contains no chlorinated solvents such as 1,1,1 trichloroethane, trichloroethylene, or methylene chloride.
- Colorless and non-staining.

Uses

Stoner® S302 Rocket Release® is an extremely versatile release agent for molding:

- Food grade
- Paintable
- Plastics

Directions for Use

Recommended Procedure

Shake well. Hold can 10 to 12 inches from mold surface. Apply a thin mist coating on mold surface for best results. Recommended for use on molds with surface temperatures below 250°F.

Storage and Handling

Do not puncture or incinerate container. Do not expose container to heat or store at temperatures above 120 °F. Keep container away from and do not use near sparks, open flame, heated surfaces, or other ignition sources.

Packaging

Stoner® S302 Rocket Release® is available in:

- 12-can case of 12 oz cans Part # S302
- 5-gallon pails & 55-gallon drum Part # M302
- 37-pound Giant Aerosol Part # S702
